Continuation of 11, does NOT place the application in condition for allowance because: the amendment is non-response to the final rejection because it fails to CANCEL the non-elected compounds. Note page 2 of the previous Office action. Applicants allege that they fail to understand the restriction requirement. Applicants ELECTED Group I drawn to the instances wherein B are any and NO ADDITONAL HETEROCYCLE IS PRESENT (anywhere in the compound). Further, applicants allege that no heteroaryl compounds are formed. The claims clearly recle, for example, wherein R2 and R3 may be joined together with the N form numerous heterocycles, i.e, morpholines, piperazines, etc., Also, R6 and R7 and R9 and R10 together with the N form numerous heterocycles, i.e., piperdines. The specification is NON-ENABLING for the many heterocycles claimed. Cancellation of the newly added proviso clause reintroduces the previous 35 U.S.C. 102 and 103 rejections.
